

Downloading office 365 at home

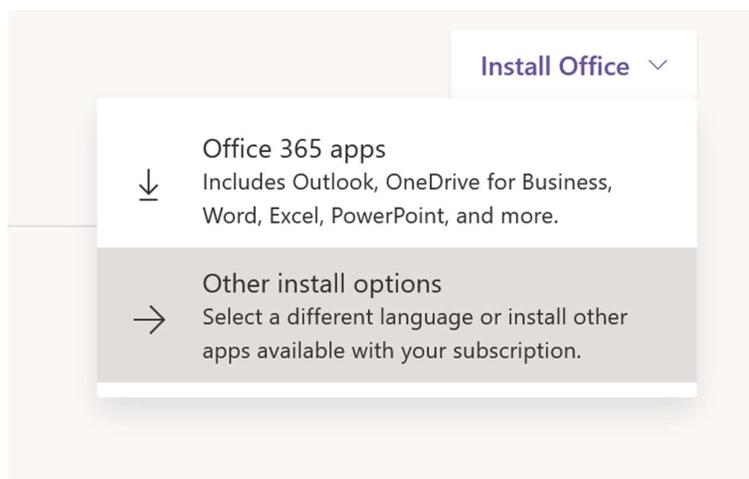

To download office at home you need to log in to office 365 <https://login.microsoftonline.com/> using your school email address and password.

then you will see this landing page.

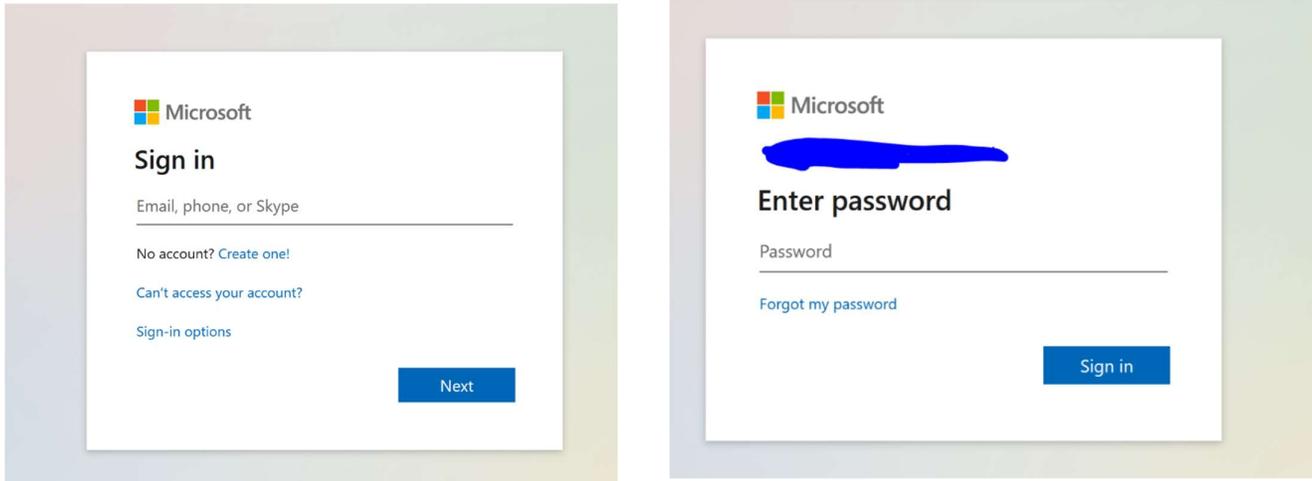

You will see install office in the towards the top right corner. Click on that and you will see these options.

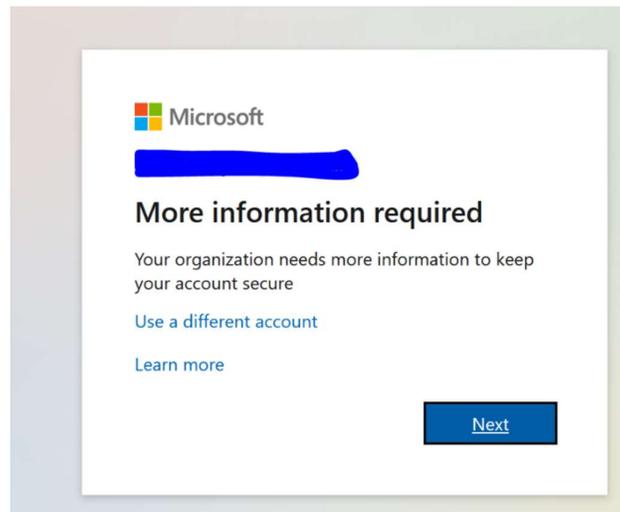

Then you can click office 365 apps and it will download office for you.

How to set up Self-Service Password

Log in to your office 365 account <https://login.microsoftonline.com/> using your email and password.

When you log in you will then see this message on the screen.

Click next then you will see a screen that asks for an alternative email or security questions.

don't lose access to your account!

To make sure you can reset your password, we need to collect some info so we can verify who you are. We won't use this to spam you - just to keep your account more secure. **You'll need to set up at least 1 of the options below.**

-  Authentication Email is not configured. [Set it up now](#)
-  Security Questions are not configured. [Set them up now](#)

[finish](#) [cancel](#)

Put in the information required. To set up the mobile authenticator app use this link <https://aka.ms/mfasetup> once you have set up one of the previous security options.

Then next time the student forgets their password that can reset it themselves by clicking forgot password.
